OBJECTIVE

Motivated Information Technology undergraduate (CGPA: 8.145) with hands-on experience in Java full-stack development, AI-powered systems, and cloud-based cybersecurity platforms. Proficient in building scalable backend services, RESTful APIs, and database-integrated web solutions. Certified in Java, DBMS, and Generative AI. Seeking a fresher role as a Java Developer, Backend Engineer, or Full Stack Developer.

TECHNICAL SKILLS

Languages	Java (Core + OOP), SQL, HTML5, CSS3, JavaScript
Databases	MySQL, PostgreSQL
Tools & Cloud	Docker, Git, GitHub, REST APIs, Cloud Infrastructure, Machine Learning Fundamentals, Generative AI
Concepts	OOP, Data Structures & Algorithms
Soft Skills	Team Collaboration, Project Management, Time Management, Communication

EDUCATION

B.Tech - Information Technology VSB Engineering College CGPA: 8.145 • Coursework: OOP with Java, Data Structures, DBMS, Computer Networks	2023 – 2027
Class XII (HSC) Ponnu Matriculation Higher Secondary School Score: 86%	2022 – 2023
Class X (SSLC) Ponnu Matriculation Higher Secondary School	2020 – 2021

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern | Pumo Tech Innovation

- Developed a production-ready full-stack web application with a responsive frontend, secure backend APIs, and relational database integration.
- Implemented authentication workflows, CRUD operations, and database schema design, delivering a seamless user experience.
- Tech Stack:** Java, HTML5, CSS3, JavaScript, MySQL

Virtual Intern - AI Music Composition | Infosys Springboard 6.0

- Built an AI-driven music composition system that analyzes user input patterns and generates original compositions using machine learning techniques.
- Tech Stack:** Python, Machine Learning, AI Frameworks

PROJECTS

DPDP PII Redaction Platform | AI Privacy Compliance System

- Engineered an AI-powered platform to automatically detect and redact Personally Identifiable Information (PII) from documents, ensuring compliance with India's Digital Personal Data Protection (DPDP) Act.
- Implemented NLP-based entity recognition to identify and mask sensitive fields such as Aadhaar, PAN, and contact details with high precision.
- Tech Stack:** Python, AI/ML Libraries, SQL, REST APIs

CloudSentinel X | Cloud-Based Cybersecurity Monitoring Platform

- Designed and deployed a real-time cloud security platform integrating threat detection, live network traffic analysis, and automated security alert dashboards.
- Architected monitoring modules to detect and flag network anomalies, reducing manual security review overhead significantly.
- Tech Stack:** Cloud Infrastructure, Docker, SQL, HTML/CSS/JavaScript

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Silver Medal:** Introduction to Java – National Certification by IIT/NIT (Awarded to top performers).
- Infosys Certified:** Java Programming & Database Management Systems (DBMS).
- NASSCOM FutureSkills:** Generative AI Fluency.

LEADERSHIP & ACTIVITIES

- Led a cross-functional team during the Infosys Springboard internship, coordinating task delegation, sprint planning, and timely project delivery.
- Actively participated in college-level technical workshops and seminars on Cybersecurity and Artificial Intelligence.
- Demonstrated initiative by independently identifying a compliance gap under the DPDP Act and building an AI solution to resolve it.
